

Java-PC

DJTECH.NET Develops industry first Java-PC

"The Best All In One Java-PC of 2001!" – e-World 2001

e-World - NJ March 5,2001 : DJTECH.NET, a division of 6for6 Group Inc, today pre-announced its new Java-PC. With an estimated street price of \$2999, the Java-PC is bound to a hit with "Java" developers everywhere. Java-PC is a full developer friendly machine with optional support for Linux as well as all Windows based platforms. Development projects will take half the time since there are no wasted trips to the kitchen for a fresh cup-o-joe. Forget about the Intel Inside, this baby's got Starbucks Inside. Click below for more information on how to get yours today!
